k. **Description of Request:** Sissonville Limited Partnership, licensee for the Sissonville Hydroelectric Project No. 9260 filed a request with the Commission for a 5-year, 8-month extension of the 40-year license for the project, currently expiring on April 30, 2028. The new expiration date for the project would be December 31, 2033. The licensee requests the extension to align the project license expiration date with several other licensed hydroelectric projects located in the lower Raquette River Basin. The licensee states that aligning the expiration dates for the projects would allow a more synchronized approach to the relicensing process. In addition, as requested by the New York State Department of Environmental Conservation and U.S. Fish and Wildlife Service, in exchange for support for the license extension, the licensee has agreed to conduct an eel study of the lower Raquette River and collect information on American eel distribution.
